RE: ML-41160 State of Utah Oil, Gas  
and Hydrocarbon Lease  
Uintah County, Utah  
42-8108

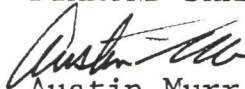

Gentlemen:

We have received your letter dated February 9, 1987 regarding the proposed tar sand operations on the referenced lease. Although we have also received recently a letter from Mr. Maxwell assuring us that he intends to fully comply with the State's regulations affecting his operations, we are concerned that the State seems to regard Mr. Maxwell as acting as Diamond's "agent" in connection with the tar sand operations. Since Diamond and Seabrook assigned 100% of the shallow rights to Mr. Maxwell, retaining no interest or control of any kind therein, we do not agree that Mr. Maxwell is acting as our agent.

We believe that the State, having approved the assignment from Diamond and Seabrook to Maxwell, has a duty to take all reasonable and authorized steps to ensure compliance by Mr. Maxwell. In this regard, the State is authorized by U.C.A. Section 40-8-7(1)(e) not merely to ask Mr. Maxwell to post a reclamation bond, but to require such a bond. We trust that this and other appropriate measures will be taken.

Very truly yours,

DIAMOND SHAMROCK EXPLORATION COMPANY
